Allowable Subject Matter

1. Claims 1-43 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding claims 1-43, the prior art of record fails to teach of a serializer connected to another end of parallel transmission mediums and to one end of the first serial transmission medium, the serializer being operable to accept the transmit/receive data and various uplink/downlink low rate static/control signals sent by the complex programmable logic device and to sequentially send the transmit/receive data and various uplink/downlink low rate static/control signals serially over the first serial transmission medium. The closest reference, Dajer et al. (U.S. Patent No. 6,587,448), teaches of in phase transmit data bits and quadrature phase transmit data bits, but fails to teach of a serializer connected to another end of parallel transmission mediums and to one end of the first serial transmission medium, the serializer being operable to accept the transmit/receive data and various uplink/downlink low rate static/control signals sent by the complex programmable logic device and to sequentially send the transmit/receive data and various uplink/downlink low rate static/control signals serially over the first serial transmission medium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
